Sarofim School of Fine Arts		
Due to the increased contact time, lab technicians and contractual issues, and other needs such as natural light and models, the Studio Courses in the Sarofim School of Fine Arts have their own schedule that does not always conform to the policies of non-scheduled times and the all campus lecture time. However, every attempt has been made to minimize these conflicts, and all students, including athletes and musicians, who need to be let out of studio early will be able to make up
